## Index 2020

### Author Index

Author Index	Page	Author Index	Page
<b>Adivarekar, R.V.;</b> Sharma, E.; Shukla, N.; Krishnamurthy, G.; Bhagwat, S.: Pigment particle interactions with viscose polymeric media during manufacturing of dope dyed viscose fibers.....95	95	<b>Cheng Feng;</b> Xia Rong; Gao Jing; Wang Lu; Bi Zhen: Preparation and characterization of electrospun chitosan-based nanofiber .....42	42
<b>Arne, W.;</b> Wegener, R.; Wieland, M.: Simulation of dry spinning processes.....47	47	<b>Cramer, J.;</b> Zimmermann, Y.; Möhring, U.: Electrical conductive viscose fiber for smart textiles and smart home .....171	171
<b>Bansode, A.;</b> Chakrabarty, A.; Patel, K.; Bhaumik, S.; Nagpure, R.: Active sportswear fabric with cellulosic fiber .....141	141	<b>Engelhardt, A.:</b> The Fiber Year 2020 – Deceleration along the textile chain .....86	86
<b>Bhagwat, S.;</b> Adivarekar, R.V.; Sharma, E.; Krishnamurthy, G.; Shukla, N.: Pigment particle interactions with viscose polymeric media during manufacturing of dope dyed viscose fibers.....95	95	<b>Fournier, P.:</b> Influence of free trade agreements on the European fiber trade .....1	1
<b>Bhaumik, S.;</b> Patel, K.; Nagpure, R.; Bansode, A.; Chakrabarty, A.: Active sportswear fabric with cellulosic fiber .....141	141	<b>Fryer, C.:</b> Early beginnings of polyamide 6 and 66.....90	90
<b>Bi Zhen;</b> Cheng Feng; Xia Rong; Gao Jing; Wang Lu: Preparation and characterization of electrospun chitosan-based nanofiber .....42	42	<b>Gampawar, S.R.;</b> Sondankar, P.; Kamble, N.N.; Karche, N.V.: Analysis of fiber morphological structure of corn husk fiber .....131	131
<b>Bos, L.:</b> Weltlaid forming technology for glass fiber nonwovens.....182	182	<b>Gao Jing;</b> Wang Lu; Bi Zhen; Cheng Feng; Xia Rong: Preparation and characterization of electrospun chitosan-based nanofiber .....42	42
<b>Buchmeiser, M.R.;</b> Mourgas, G.: Flame-retardant polyamides for textile applications.....36	36	<b>Grabandt, O.;</b> Cao, Z.: Contribution of aramid fibers to the circular economy .....165	165
- Mourgas, G.: Flame-retardant polyamides for textile applications .....160	160	<b>Gries, T.;</b> Noll, I.; Kopaczka, M.; Rippel, O.; Merhof, D.; Seide, G.: Semi-automated geometry-independent determination of the shape factor of non-circular fibers .....31	31
<b>Cao, Z.;</b> Grabandt, O.: Contribution of aramid fibers to the circular economy .....165	165	- Manvi, P. K.: Melt spinning of thermoplastic polyurethane – solvent-free alternative to conventional solution spinning process .....176	176
<b>Chakrabarty, A.;</b> Bhaumik, S.; Patel, K.; Nagpure, R.; Bansode, A.: Active sportswear fabric with cellulosic fiber .....141	141	<b>Grönqvist, S.;</b> Harlin, A.; Steiner, M.; Kunkel, R.; Vehviläinen, M.; Määttänen, M.: Sustainable continuous process for cellulosic regenerated fibers .....128	128
<b>Changjiang Lu;</b> Shengjie Chen; Qiuran Jiang; Ni Wang: Surface chemical composition analysis and properties of flame-retardant lyocell fiber .....138	138	<b>Gudiyawar, M. Y.;</b> Rathod, D.: Effect of yarn winding tension on characteristics of air-jet textured yarns .....147	147
		<b>Gulhane, S.:</b> Effect of polyester filament yarn structure on wicking .....92	92
		<b>Hackl, A.;</b> Niedl, P.: PET/polyester recycling: requirements and recycling solutions for reuse in filaments .....157	157
		<b>Heuberger, M.;</b> Hufenus, R.; Jakubowski, K.: Melt-spun photoluminescent polymer optical fibers for solar cell enhancement .....98	98
		<b>Hufenus, R.;</b> Jakubowski, K.; Heuberger, M.: Melt-spun photoluminescent polymer optical fibers for solar cell enhancement .....98	98
		<b>Jadhav, N.;</b> Turukmane, R.; Kolte, P.; Kakde, M.: Relationship between heater temperature and PET textured yarn properties .....45	45
		<b>Jakubowski, K.;</b> Heuberger, M.; Hufenus, R.: Melt-spun photoluminescent polymer optical fibers for solar cell enhancement.....98	98
		<b>Jary, S.;</b> Rahbaran, S.; Kulka, S., Schlager, S.; Maier, T.: Nonwovens applications using lyocell short cut fibers for wetlaid-spunlace fabrics .....179	179
		<b>Kakde, M.;</b> Jadhav, N.; Turukmane, R.; Kolte, P.: Relationship between heater temperature and PET textured yarn properties .....45	45
		<b>Kamble, N.N.;</b> Karche, N.V.; Gampawar, S.R.; Sondankar, P.: Analysis of fiber morphological structure of corn husk fiber .....131	131
		<b>Kammler, S.;</b> Schriever, S.: Cellulose in textile technology – an opportunity for the bio-economy.....146	146
		<b>Karche, N.V.;</b> Gampawar, S.R.; Sondankar, P.; Kamble, N.N.: Analysis of fiber morphological structure of corn husk fiber .....131	131
		<b>Kolte, P.;</b> Kakde, M.; Jadhav, N.; Turukmane, R.: Relationship between heater temperature and PET textured yarn properties .....45	45
		<b>Kopaczka, M.;</b> Rippel, O.; Merhof, D.; Seide, G.; Gries, T.; Noll, I.: Semi-automated geometry-independent determination of the shape factor of non-circular fibers.....31	31

Trends  
and  
quality  
are  
in our  
DNA!

Nonwovens are a real growth market – innovative and with a multitude of application areas.

**nonwovensTRENDS** offers competent, current and reliable expert information – in print and online.

**www.nonwovensTRENDS.com** – The industry portal with a regular free newsletter.
